

Notice of Completion

The Township of Scugog, in partnership with Kawartha Conservation and the Scugog Lake Stewards, has completed a Schedule B Municipal Class Environmental Assessment (MCEA) to establish the preferred solution to address the impacted water quality in Lake Scugog and the shallow depth of water in Port Perry Bay and the Municipal Boat Launch. The preferred solution will increase boating access and other recreational uses such as paddling and angling. It will also enhance stormwater treatment, increase tourism and increase fisheries productivity in Lake Scugog.

The preferred solution involves constructing a 245 m long berm including a trail and fishing platforms, dredging 3.67 ha generally to a 1.8 m depth, creating a 10,650 m² wetland at Baagwating outlet with the dredged materials and removing approximately 2,000 m³ of dredge material offsite. The solution also includes an aquatic vegetation management plan, fisheries offset plan and post construction monitoring.

A Project File Report (PFR) has been prepared, which documents the MCEA process carried out for the Project including how the preferred solution was determined. The PFR is being made available for a comment period starting on February 28, 2023 and ending on March 29, 2023 at the Township of Scugog Municipal Office located at 181 Perry Street, Port Perry and on the Township's website:

If there are outstanding concerns that the Project may adversely impact constitutionally protected Aboriginal and treaty rights, which cannot be resolved in discussion with the Township, then a person or party may request that the Minister of the Environment, Conservation and Parks make an order for the Project to comply with Section 16 of the *Environmental Assessment Act*. This is referred to as a Section 16 Order, which addresses Individual Environmental Assessments.

Please address the Section 16 Order request in writing to each of the following three individuals:
